Wide beam Type V 22in1 module lens for roadway lighting

Model:	AJST304D22LEDT5
Size:	294x87.5(mm)
Height:	8.6mm
Beam Angle:	Type V
Material:	PC
Transmittance:	>88%
LED Type:	7070LED

FEATURES

Size & Angle: diameter 305mm, height 8.6mm, beam angle TYPE V, suitable for a variety of road lighting scenarios.

Material & Transmittance: Made of optical grade PC material, the light transmittance is over 88%, ensuring efficient light transmission.

COMPATIBILITY: Suitable for 7070 LEDs, can be seamlessly integrated with a wide range of LED luminaires.
