| LED Type: | 3535LED |

FEATURES

1. 1.8x1 Typell-Medium street lens compatible with 3535LEDs. Suitable for various outdoor lighting applications, including street lighting, parking lots, highways, and residential areas.
2. Through specialized optical design, the Type II-Medium lens can reduce upward or surrounding light scatter, helping to minimize light pollution levels and concentrating light where it's needed.
3. Designed to minimize light spill and skyglow, helping to preserve the night sky's natural darkness and reduce light pollution.
