

35mm Diameter COB Led Light Lens For Spot Light

Model:	AHCOB3522D24G
Size:	Ø35mm
Height:	22.5mm
Beam Angle:	24°
Material:	PMMA
Transmittance:	93%
LED Type:	COB LED

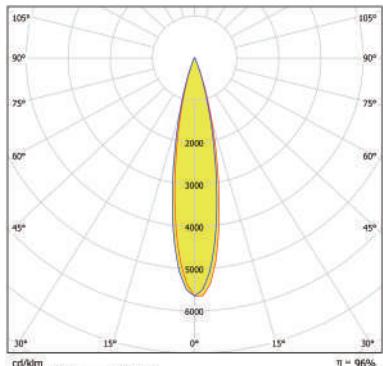

FEATURES

- 1, COB lens is an optical component specifically designed to control and shape the light output of a COB LED.
- 2, COB lenses are engineered to maximize the efficiency of the COB LED. They are designed to minimize light loss and ensure that a greater percentage of the emitted light is effectively directed toward the target area. This helps to improve energy efficiency and reduce wasted light.
- 3, COB lenses are designed to maximize the efficiency of the COB LED by minimizing light loss and optimizing light distribution. They are engineered to ensure a high percentage of the emitted light is directed to the desired area, resulting in improved energy efficiency and reduced wasted light.
