

41mm Diameter 35 Degree Lens For COB Led

Model	AHCOB4111D35G
Size:	Ø41.36mm
Height:	11.0mm
Beam Angle:	35°
Material:	PMMA
Transmittance:	90%
LED Type:	COB LED

FEATURES

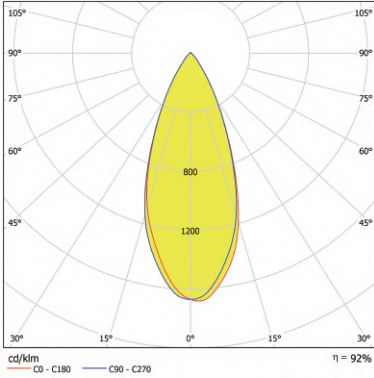

1, COB lens is an optical component specifically designed to control and shape the light output of a COB LED.

2, COB lenses are used in retail and display lighting to highlight products and create attractive visual effects. The lenses help shape the light beam and ensure uniform illumination of merchandise in showcases or other display areas. The controlled lighting provided by COB lenses enhances the appearance of products and draws attention to specific areas.

3, COB lenses are designed with precision optics to achieve specific beam characteristics and light control.
