

62mm COB Led Optical Led Lens For Down Lights

Model:	AHC0B6022D
Size:	Ø60mm
Height:	22.2mm
Beam Angle:	15°, 24°
Material:	PMMA
Transmittance:	90%
LED Type:	COB LED

FEATURES

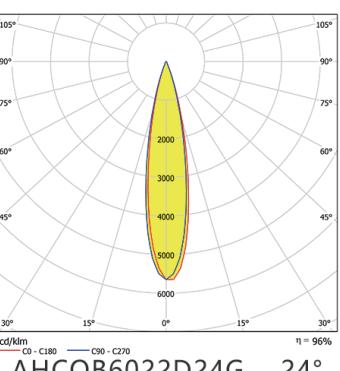

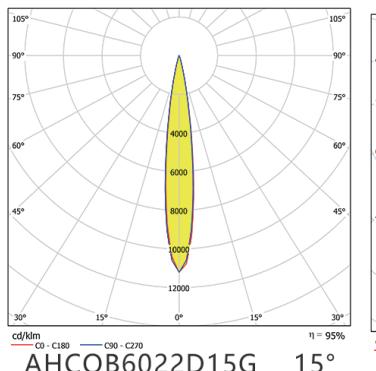

1, 62mm Cob Led Optical Led Lens For Down Lights. COB lens is an optical component specifically designed to control and shape the light output of a COB LED.

2, COB lenses are widely used in indoor lighting applications such as downlights, track lights, recessed and pendant lights. The lenses help control the beam angle and light distribution, ensuring efficient and uniform illumination in residential, commercial, and hospitality spaces.

3, COB lenses are incorporated into various indoor and outdoor lighting fixtures, including downlights, spotlights, floodlights, and wall washers. These lenses help shape the light emitted by the COB LEDs, ensuring efficient light distribution and achieving desired lighting effects for different applications.
