

75mm COB Lens 24 Degree 38 Degree With Buckle

Model	AHCOB7522D
Size:	Ø75mm
Height:	22mm
Beam Angle:	24°,38°
Material:	PMMA
Transmittance:	90%
LED Type:	COB LED

FEATURES

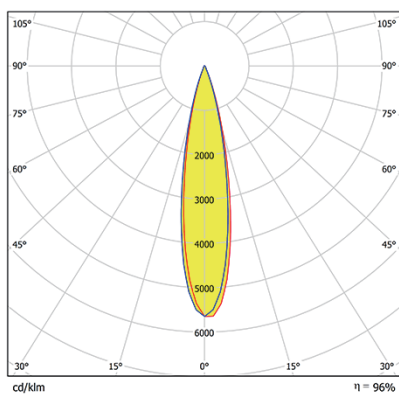

1, 75mm Cob Lens 24 Degree 38 Degree With Buckle

2, COB lenses are used to precisely control the light emitted by the COB LED. They help to focus and direct light in a specific direction, allowing for efficient light distribution and minimizing light loss.

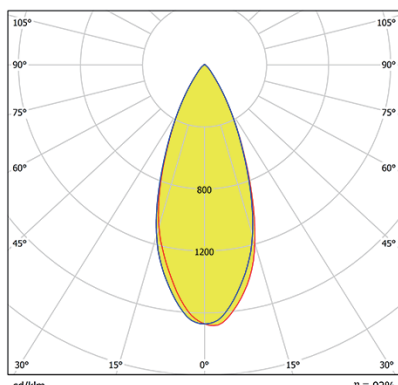

3, COB lenses play a critical role in stage and entertainment lighting applications. They help focus light emitted by COB LEDs onto performers or specific areas on the stage. COB lenses can provide precise beam control, allowing lighting designers to create spotlights, washes, or other desired lighting effects for concerts, theatrical performances, and other live events.
