

35LED Module 40x110° Beam Optics for Tunnel Lighting

Model:	AJHB275D35LED40110G
Size:	259.51x74.51(mm)
Height:	8.0mm
Beam Angle:	40x110°
Material:	PC
Transmittance:	>88%
LED Type:	5050LED

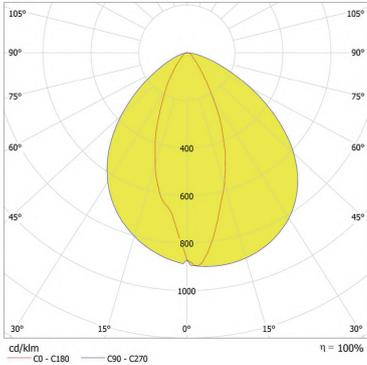

FEATURES

1.The 40x110° beam angle provides a more even light distribution. Constant and uniform illumination is required in tunnels to avoid dark areas and glare.

And this beam angle provides adequate coverage across the width of the tunnel (110°) while maintaining a moderate extension along the length (40°).

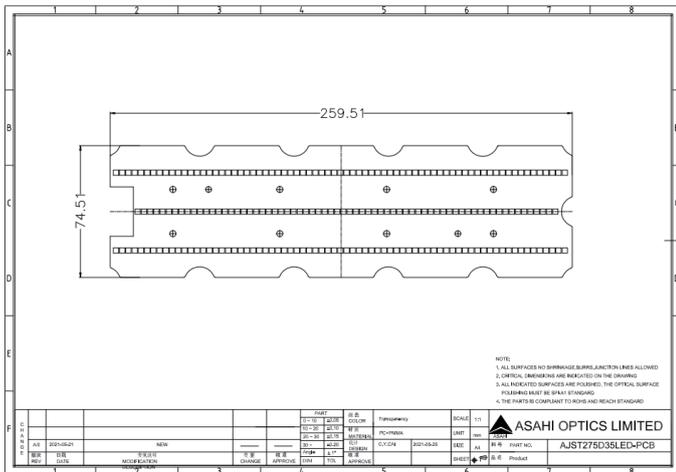

LENS LIGHT DISTRIBUTION & APPLICATION

40x110°
