

3030LED 48in1 array asymmetric street light lens with 70X160°

Model:	AJST236D48LED70160G
Size:	236x70(mm)
Height:	6.9mm
Beam Angle:	70x160°
Material:	PC
Transmittance:	>88%
LED Type:	3030 LED

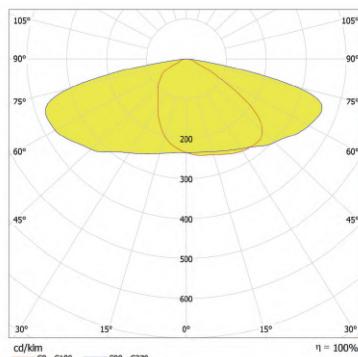

FEATURES

The 70×160° asymmetric light distribution design is particularly suitable for the following scenarios due to its wide horizontal coverage and precise vertical light control:

- 1.Roadway lighting (city roads, highways)
- 2.Sidewalk and bicycle path lighting
