FEATURES

1. TYPE 3 lenses are typically used in street lighting fixtures, providing a wider distribution of light that is ideal for illuminating roadways, sidewalks, and bike paths.
2. The TYPE 3 lens design helps to minimize glare, light pollution, and dark spots, creating a well-lit and safe environment for pedestrians and drivers.
3. TYPE 3 street lighting lenses are a popular choice for municipal lighting projects, as they offer a balance of visibility, safety, and energy efficiency.
