

## 44mm Diameter LED Reflector For Track Light

Model	AR4420
Size:	Ø44mm, Ø8.5mm
Height:	20.2mm
Beam Angle:	13°, 25°, 38°
Material:	PC
Transmittance:	88%
LED Type:	COB LED

### FEATURES

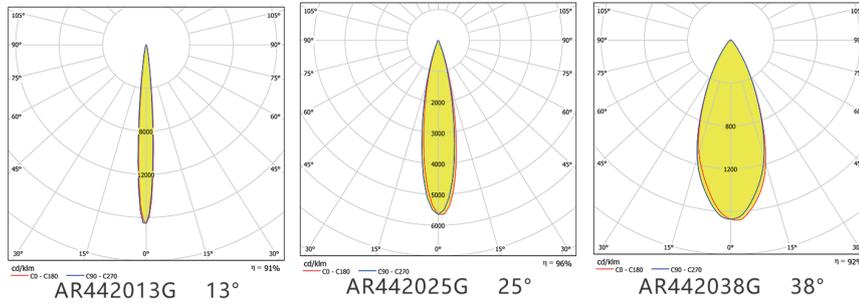

1, 44mm Diameter LED Reflector For Track Light

2, A COB LED (Chip-on-Board LED) reflector is a type of lighting fixture that combines multiple LED chips into a single module. The COB technology allows for a higher packing density of LED chips, resulting in powerful and efficient light source.

3, The reflector is designed to shape the light beam and reduce light loss by reflecting the emitted light towards the desired direction. It helps to minimize scattering and maximize the overall light output efficiency.

## LENS LIGHT DISTRIBUTION & APPLICATION

13°, 25°, 38°
