

50mm Aluminum Coating LED Optical Reflector With Holder

Model	AR5035
Size:	Ø50mm, Ø11.5mm
Height:	35.1mm
Beam Angle:	15°, 24°, 38°
Material:	PC+Aluminum Coating
Transmittance:	88%
LED Type:	COB LED

FEATURES

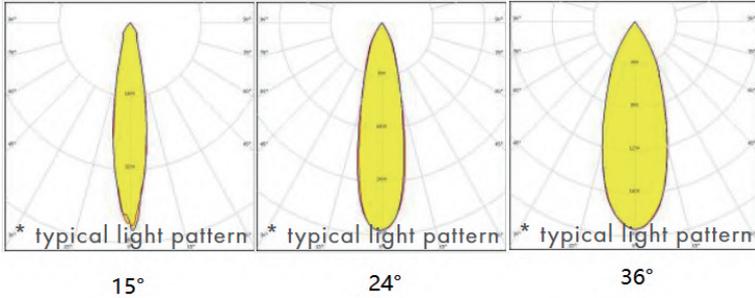

1, 50mm Aluminum Coating LED Optical Reflector With Holder, A reflector, in the context of COB LEDs, is an accessory used to control and direct the light emitted by the LEDs.

2, The main purpose of a COB LED reflector is to enhance the efficiency and directionality of the light output. By using a reflector, the light emitted by the COB LEDs can be concentrated and directed toward a specific area or target. This can be beneficial in applications where focused illumination is required, such as in spotlights or task lighting.

3, COB LED reflectors are utilized for illuminating pathways, walkways, and sidewalks in outdoor areas such as parks, campuses, and residential complexes. The reflectors help to direct the light downward, ensuring clear visibility and guiding people along designated paths.
